PRESS RELEASE

JER Online Announces Green Education Courses

From Eco Friendly Living to Going Solar and Beyond

Atlanta, Georgia, May 05, 2009-- The opportunity for your customers and corporate clients to locate a growing number of Green Education & Sustainability Courses and Certificates is now just one click away. JER Online has created the ability for partners to activate an instant supplemental Green Ed catalog.

According to Dr. John Reid, "the sustainable development of new technologies that address environmental issues and policies requires that a wide variety of training be engaged in. JER Online is positioned to meet the training needs of working professionals and those who have an interest in learning more about this evolving field and body of knowledge.

Both general, informational courses and technical certificates are included in the JER Online catalog. Many of the programs listed are approved by governing bodies such as the U.S. Green Building Council and meet stringent development requirements. Courses are geared for anytime, anywhere learning and application.

"This is just a starting point for JER Online and our partners," states Dr. Reid. "Because JER Online employs an "on demand" type business model the ability to locate and activate courses from a variety of program producers is perfectly suited to building up our offerings and sustaining an ever growing selection in our general catalog of 1000+ program offerings."

Jason La Fleur, President of Eco Achievers and Director of Curriculum Development comments, "By partnering with JER Online, we will be widening the audience exposed to the JER Online course catalog and be able to significantly improve awareness of the options and technologies for sustainability and renewable energy with today's workforce education." Current subject areas include Eco-Friendly Living, Energy Efficiency and Conservation, Renewable Energy, Green Construction Technology, Green Design, Sustainable Business Practices.

In addition, JER Online, a national provider of online education in partnership with accredited colleges and universities seeks to identify subject matter experts to develop courses and certificate programs. Those with backgrounds and experience in Green Education and Sustainability and similar allied areas are invited to contribute courses. Dr. Reid states, "We are interested in online or face-to-face sustainability programs already developed or identifying institutions that seek to collaborate and engage in innovative projects that serve local and national audiences. In this case co-development options can be considered."

For more information on how your institution can make green courses available immediately through JER Online's Course Catalog Manager, revenue share details, demos and marketing support, etc. please make contact with Dr. Reid (drjohn@jeronline.com). 706-216-3406. (<http://jeronline.com>)

Eco Achievers Announces Partnership with JER Online

*Online Sustainability and Renewable Energy Education Courses Available
Through JER Online's Continuing Workforce Education Partners*

(Atlanta, GA.) Eco Achievers, LLC has teamed up with JER Online (<http://jeronline.com>) to offer their catalog of online education programs specializing in sustainability and renewable energy. Students and working professionals can register to take the courses through anyone of JER Online's Continuing Workforce Education Partners.

“Courses offered by Eco Achievers are targeted towards people who wish to expand their knowledge of “green” education in renewable energy, energy efficiency, and other sustainability technologies, and learn how to implement them as homeowners and business owners,” said Jason La Fleur, President of Eco Achievers and Director of Curriculum Development. “By partnering with JER Online, we will be widening the audience exposed to our course catalog and be able to significantly improve awareness of the options and technologies for sustainability and renewable energy with today’s workforce education.” The course catalog now offered by JER Online and Eco Achievers are available under the heading “Green Education & Sustainability.” “We are rapidly expanding this area based on demand, and look forward to having a good selection of programs covering Eco-Friendly Living, Energy Efficiency and Conservation, Renewable Energy, Green Construction Technology, Green Design, Sustainable Business Practices currently includes the three courses:

HPB101: Home Energy Fundamentals

Targeted specifically towards homeowners, this course teaches students the fundamentals of how a home uses energy, and how to reduce overall energy consumption. Methods of making your home more energy efficient are covered, and students gain an understanding of the basic types of renewable energy available.

SOLAR 110: Achieving Solar - An Introductory Guide

Students are taught the differences between solar thermal systems and solar photovoltaic (PV) systems in this four hour online class. Climate, geographic, siting, and zoning considerations are

covered. Coursework also covers solar payback, how solar can add value to a structure, and how to locate a contractor.

SOL 105: Choosing a Renewable Energy Installer

Learn important considerations and characteristics to look for in a potential installer, and how to locate renewable energy installers. The course also walks through some important installation considerations, including what you can do to help ensure a successful installation. The course also directs students to resources to locate installers in their area.

The curriculum is self-paced and easy to access, filling a vital gap for consumers looking for information on sustainable and renewable technologies from one source. Students are able to enroll through the website and complete the course at their own pace. Once enrolled, a student has access to the full course materials for 60 days.

Eco Achievers, LLC, is a United States Green Building Council (USGBC) Education Provider. Eco Achievers is committed to enhancing the ongoing professional development of the green building industry through top-quality, third-party reviewed education courses.

For more information on how your institution can make these courses available immediately through JER Online's Course Catalog Manager, revenue share details, demos and marketing support, etc. please make contact with Dr. Reid (drjohn@jeronline.com). 706-216-3406.

► **Eastern Collaborates with JER Online to Promote Online Suicide Prevention Training Courses**

Cheney, Wash.

Eastern Washington University, QPR Institute (a nationally and internationally recognized authority of suicide prevention training), and JER Online (a nationally recognized provider of online education) have established a collaboration to promote and distribute QPR Institute's suicide prevention online training courses:

QPR**© **Risk Assessment & Training provides an introduction to suicide risk detection, suicide risk assessment and suicide risk management from a medical, psychological and legal perspective.

QPR**© **Triage Suicide Prevention Training is a self-paced, online course ideal for "first responders" who encounter and engage with potentially suicidal persons.

Eastern Washington University partnered with the QPR Institute in 2005 to develop and offer online suicide prevention training. Now EWU and QPR Institute have teamed with JER Online in order to provide these vital and crucial courses to a broader market. JER affords EWU and QPR Institute a sophisticated network of associates and highly visible online presence to offer these essential suicide prevention training.

As noted by Dr. John Reid, president of JER Online, "We were attracted to EWU and QPR Institute's suicide prevention training because we understand the importance of offering this material to community members, both professional and personal, seeking support and training with the prevention of suicide. Furthermore, the programs offered by JER Online must provide pertinent, actionable information in a format that is uncomplicated and user-friendly. The professional and expert approach through the QPR Suicide Prevention Training meets this standard."

Sara Sexton-Johnson, director of Eastern's Office of Continuing Education and Professional Advancement, stresses the importance of the information provided within these two suicide prevention courses. "This arrangement allows Eastern Washington University the flexibility to sustain its tradition of developing valuable, worthwhile educational programs and to seek avenues to provide this essential QPR suicide prevention information to a broader audience. It is a win-win partnership."

For more information about the QPR Institute's suicide prevention online training courses: ***QPRT***© *Risk Assessment & Training* and ***QPR***© *Triage Suicide Prevention Training*, contact JER Online at 706-216-3406 or toll free at 1.866-537-5376. Demos are available upon request.

Chattanooga State Technical Community College and JER Online Establish Partnership

Chattanooga State Technical Community College and JER Online, a nationally recognized provider of online education, have established a collaboration to promote and distribute an innovative, internet-based resource known as Build Your Own BIZ. With the increased demand for Web-based instruction, this strategic alliance aligns the global marketing strength of JER Online with the quality educational programs developed by Chattanooga State.

Created by seasoned, successful business leaders, Build Your Own BIZ began as a special outreach initiative of Chattanooga State, specifically designed to support the needs of the small business owner. As the project evolved, Build Your Own BIZ developed into an online business consultant, featuring a series of comprehensive courses that mentor and encourage entrepreneurs.

Richard Burke, director for continuing education at Chattanooga State, underscores the advantage of partnering with JER Online. "JER Online affords Chattanooga State access to an international market through its sophisticated network of associates and its highly-visible online presence," says Mr. Burke. "Chattanooga State strives to connect with cutting edge, dynamic companies to create mutually beneficial opportunities for students, our faculty, and communities outside our region. We are pleased that JER Online recognized the significance of Build Your Own BIZ and will be the conduit through which this program reaches a worldwide audience.

Build Your Own BIZ is an all-inclusive internet advisor, highlighting the most relevant, current business management information. As noted by Dr. John Reid, president of JER Online, "We were attracted to Build Your Own BIZ because we understand the importance of offering this type of product to business owners seeking online support and training. Furthermore, the programs offered by JER Online must provide pertinent, actionable information in a format that is uncomplicated and user-friendly. The professional and practical approach through which Build Your Own BIZ organizes and presents its courses meets this standard."

Build Your Own BIZ is comprehensive and logical. The program features tutorials that include business templates; guidance about sales and marketing; information on creating financially stable environment; details about operations management; and facts about existing human resources practices.

As the request for internet resources, that provide simple access to instruction, coaching, and support, continues to grow, strategic partnerships like JER Online and Chattanooga State become essential. "Responding to the pressures of professional and personal obligations is challenging at best," said Dr. Reid. "The convenience of working from a personal computer and at a self-directed pace is very appealing. Without question, online education is the way of the future."

Mr. Burke concurs that the overwhelming popularity of Web-based education will persist. He also stresses the importance of the agreement between Chattanooga State and JER Online. "This arrangement allows Chattanooga State the flexibility to sustain its tradition of developing valuable, worthwhile educational programs and deepens the prominent reputation of JER Online for indentifying substantial, meaningful online learning opportunities for its customers. It is a win-win partnership."

For more information about the Build Your Own BIZ business management series, contact representatives at JER Online by calling toll free at 1.866.537.5376 or by email at educontact@jeronline.com. Additional information is available at the JER Online Web site at www.jeronline.com.

For more information about Chattanooga State and its educational programs, call the Chattanooga State information hotline at 423.697.4404 or toll free at 1.866.547.3733. Information is also available on the college's Web site at www.chattanoogaastate.edu.

Chattanooga State is a comprehensive, regionally accredited community college, operated under the policies and guidelines of the Tennessee Board of Regents College System. Founded in 1965 and serving a six-county area in Southeast Tennessee, Chattanooga State offers a wide array of programs and services.

VIRGINIA WESTERN COMMUNITY COLLEGE SELECTS TRUMP UNIVERSITY'S ENTREPRENEURSHIP COURSES FOR WORKFORCE DEVELOPMENT PROGRAM

Virginian entrepreneurs learn to build businesses through Trump University's entrepreneurship courses offered by Virginia Western Community College's online training and provided through JER Online Professional Grade Training™.

NEW YORK, NY - Trump University's Ivy League entrepreneurship courses become part of Virginia Western Community College's Workforce Development Services "Learn Connect" training. The addition is in response to Virginia's local economic development programs focused on the growth of new businesses.

During 2007 Virginia Western received a grant to develop an entrepreneurship program as part of its Workforce Development Services "Learn Connect" training which provides online training and customized training to local businesses, industries, and government in Virginia. Students completing the entrepreneurship courses through Virginia Western Community College and decide to locate their start-up business within the City of Roanoke's entrepreneurship district will be eligible for incentives such as grants for additional training, reduced cost for office supplies, legal, and accounting services. In addition the entrepreneur district could potential offer financial backing and shared cost(s) for administrative support for one of more business in a certain area.

On May 29, 2008 Virginia Western will join officials from the City of Roanoke, Roanoke County, Virginia Department of Business Assistance and the Roanoke Valley Chamber of Commerce Small Business Development Center to host the third Entrepreneur Express. The one-day event held on campus will provide information for entrepreneurs including mini entrepreneurship seminars and an overview of Trump University's [entrepreneurship e-courses](#) and other resources available to the business owners.

"Trump University's entrepreneurship courses will allow our citizens to learn how to build a new business from the world's most successful entrepreneurs and business leaders," said Dr. Chuck Terrell, Vice President of Workforce Development Services at Virginia Western Community College. "Through the formation of these new businesses, not only will our citizens prosper but our local economy will grow and become stronger," he added.

[JER Online](#), a provider of Professional Grade Training™ distributes [Trump University's](#) programs to continuing workforce education programs nationally. The courses and certificates for the Professional Grade Training program are developed by Corporate Content Providers for industry training and made available exclusively to [JER Online's](#) .edu partners.

"We are pleased to be engaged in a strategic partnership with Trump University. Our network of accredited colleges and universities has been very receptive to us offering these corporate online courses. The depth and rigor of these courses is exceptional. The fact that they are developed and taught by faculty from major universities and Fortune 500 senior executives speaks to the quality of the program," said Dr. John Reid, President of JER Group, Inc. (*JER Online*). "It is especially noteworthy that Virginia Western sees significant educational value in the Trump University Online Program. We are optimistic that other educational programs at all levels will take advantage of this exceptional e-learning opportunity."

"Trump University is extremely pleased to deliver our unique combination of learning by doing education via *JER Online* to the continuing education market," said Paul Quintal, Vice President of Business Development for Trump University. "Trump University's partnership with *JER Online* has opened up new possibilities for people in communities in Roanoke to learn the skills they need to become successful business owners. By providing the education people can apply to the real world, not only will they be successful, but their communities will thrive."

About Trump University

An exceptional perspective on building success, a hands-on approach, a world-class faculty and Ivy League quality curriculums are what make Trump University unlike any other online education Institution in the world. Since 2005, Donald Trump's [online university](#) has been teaching its thriving community of members everything from [real estate investing](#), to marketing, entrepreneurship skills, business planning, management, wealth creation and many other subject matters that appeal to aspiring entrepreneurs and business professionals.
